# My Safety Map

With your family, draw a floor plan of your house, with all the rooms and the yard. Include all the doors, windows and furniture, too.

- Draw two escape plans from each room to get out of the house in case a fire starts; if one way is blocked by smoke or fire, you can use the other.
- Watch out for things that block your way out like burglar bars and furniture.
- Mark the safe meeting place with a big X.

## Don't forget!

- If there is a fire, close the door when you leave a room. This slows down the fire and gives everyone more time to get out.
- Everyone should gather at an agreed-upon meeting place outside. Try to choose a place in front, where the fire department will arrive.
- Practice crawling low under smoke—smoke rises, so the best air is a few inches off the floor.
- Even though fires can be scary, don't try to hide. Follow your plan and get out.

**Practice your plan. Practice often until everyone knows the plan, and then twice a year. Make sure everyone participates.**
